EXPERIENCE

Business Analyst

E&M Technology House

Feb 2026 – Present

- Spearheaded ERP system development, acting as Project Manager to guide the team in day-to-day activities.
- Applied Scrum framework to manage ERP delivery, creating user stories and sprint backlogs in JIRA

- Explained system logics and workflows to developers, ensuring clarity and alignment with business objectives.
- Executed research and written Business Requirement Documents (BRD), Functional Requirement Documents (FRD), and System Specification Documents (SSD) from them.
- Designed and documented software architecture for Family Bank's reconciliation system, ensuring compliance, scalability, and audit-readiness.
- Tested ERP, Internet Banking, and Core Banking modules, validating functionality and performance against business requirements.
- Delivered fintech training for Ascenders in Uganda on digital financial systems, ERP workflows, and SDLC best practices.
- Supported the Ascend innovation team in navigating fintech solutions, aligning deliverables with industry standards and client expectations.

Bidding Officer / Pre-Sales Analyst

E&M Technology House

May 2025 – Present

- Carried Out tender searches across platforms such as Tender Sure, SRM, Global Tenders, Public Procurement portals, and government gazettes.
- Evaluated identified tenders to determine strategic fit and pursued those aligned with company capabilities.
- Prepared bid documentation, tracked opportunities, and submitted competitive responses, securing major wins including:
 - Innovation Hub setup for Pearl Bank (Uganda).
 - Supply of reconciliation systems for Family Bank and VCB.
 - Development of a Learning Management System for Central Careers.
- Composed pitching documentation that won strategic deals, including:
 - Partnership with **Equity Bank Uganda** for SACCO solutions.
 - ERP upgrade tender for **Equity Bank** (Oracle ERP Upgrade).
 - Partnership with **Centenary Bank, Heritage Group** and **KCB(BPR) Rwanda**.
 - Pitch to **VCB** for Internet Banking development (later awarded).
 - Pitch to Solve KE for Supply Chain development (successfully won, also served as Business Analyst).
- Delivered pitches and demos for multiple tenders; contracts were not secured due to external reporting standards.

- Drafted executive presentation materials for the CEO, enhancing boardroom communication.
- Managed bid pricing, payments, and account receivables while monitoring bid progress across stages.

(Attachment)Pre-Sales, Technical & Systems

Pre-Sales, Technical & Systems

Next Technologies Ltd

Sept 2022 – Mar 2023

- Proposed solutions and prepared tender responses in the Pre-Sales, Technical, and Systems departments.
- Installed and managed IT infrastructure: cabinets, cabling systems, trunks, knockout boxes, and patch panels.
- Upgraded and maintained NetApp storage systems and Palo Alto firewalls.
- Configured KVM switches and installed firewalls, servers, and switches in data center environments.
- Oversaw rack management in data centers and performed SFP unlocking.
- Recognized by management as hardworking, eager to learn, and dependable, with strong technical aptitude and problem-solving skills.

PROJECTS

- **Enterprise Resource Planning (ERP) Development & Implementation**

Planned and tracked delivery using Agile Scrum methodology, leveraging Google Sheets for sprint backlogs and user story management alongside Authoring clear user stories and acceptance criteria to guide development teams. Guided ERP testing to validate functionality against business requirements, ensuring compliance, scalability, and operational efficiency.

- **Bank Reconciliation System – Family Bank**

Applied Agile planning practices with sprint tracking in Click Up. Designed and documented system architecture for reconciliation workflows, producing BRD, FRD, and SSD documentation. Delivered an audit-ready solution aligned with regulatory standards and operational efficiency.

- **School Management System – Central Careers**

Conducted research and documented business requirements, producing BRDs and functional specifications. Contributed to UI/UX design for the platform and planned delivery using Agile methodology to ensure iterative feedback and stakeholder alignment.

- **Ascend Innovation Team – Uganda**

Delivered training on Agile Scrum practices and guided the team through research methods, process discovery, and documentation mapping. Mentored them on producing structured deliverables including BRD, FRD, and SAD, ensuring audit-ready documentation and industry alignment.

- **Supply Chain Development – Solve KE**

Documented integration requirements for reverse factoring and dealer finance workflows, alongside AWS Cognito authentication. Produced system specifications and compliance documentation to support successful tender delivery and solution deployment.

KEY ACHIEVEMENTS

- ERP Project Success Led team to achieve 120% of ERP project objectives within six months.
- Bidding Officer Wins Secured 5 major bid wins, increasing company revenue by \$1.2 million annually.
- Fintech Training Impact Delivered fintech training to 50 professionals, boosting digital system proficiency by 70%.
- System Compliance Improvement Improved system compliance rate by 30% for Family Bank's reconciliation workflows.
